

This is a request that the FCC does not replace our FM translator (K-LOVE) with LPFM. I have been listening to K-LOVE for many years now and as a resident of this community do not want to even think what the impact would be of not having wholesome radio to listen to.

K-LOVE is an icon in our area. We listen to it for news, wholesome music, weather and encouragement through out our day. Our young people listen to this radio station and are able to hear music that does not encourage drugs, sex, use of weapons and alcohol. The service that K-LOVE provides can not be replaced. Please don't allow K-LOVE to be taken away from us. We are the public that listens to radio and this is what we want to hear. Thank-you, Judy Clayton
